Calibre Care
quality healthcare solutions

Quality Assured

Calibre Care and its management system is audited and certified to AS/NZS ISO 9001:2008, to ensure we meet your needs every time.

Standards Certified

Many of our products are Australian Standards Tested and Approved and also registered with the Therapeutic Goods Administration.

100% Services and Parts Guarantee

Our fully trained technicians will ensure your equipment is maintained in peak condition.

Our Complimentary Home Demo

This no-obligations service helps you trial products or equipment before you make that important decision to purchase.

Door-to-door Delivery

Making your life easier. Call our friendly staff on 08 9841 4200 and they can provide you with further details of this service or information on any of our products.

Prices current to September 2022. Calibre Care reserves the right to alter product design, colour, technical specification or prices without prior notice. All business transactions are subject to Standard Terms and Conditions of sale (copies available upon request). No part of this document may be reproduced in part or whole without written consent, otherwise legal action will be taken. © Copyright Calibre Care 2022.

A large, stylized 'E' logo is centered on a shield-shaped background. The shield has a blue and white gradient. The 'E' is white and has a cursive, flowing design. The shield is set against a dark blue background.

3750-0900

Nursing Bed, Floorline, Single, No CPR, Unicare Xcel, (SWL 200kg)

- Electric Height Adjustment
- Low position 110mm from floor
- Backrest retraction provides shear and pressure relief, including anti-crushing when leg and back raised. This also provides excellent support of the head when adjusting the backrest
- Automatic prophylaxis position supports decongestion with venous disease and promotes prevention of bedsores
- Patient surface is designed for ease of cleaning and allows the mattress to breathe while giving ultimate support
- Ergonomic 4 Part Surface based on Arthrometries (average size and height of a person), with 830mm backrest, effectively supporting the cervical spine
- In built bed extension with every bed, includes extendable mattress platform - No extra sections required. Allows for 3 bed lengths – 200, 210 and 220cm
- Removeable head and footboards
- Vertical Lift, eliminating need for space between wall and head of bed
- Mattress retainers ensures mattress security
- High quality Linak motors, controllers and electrical components
- Tested to International Standards IEC 60601-2-52:2010-12, EU directive 93/42/EEC and 2007/47/EC
- Multi section includes knee bend, backrest, vascular Support, hi-lo, trendelenburg and comfort seating positions

- Battery backup.
- Australian made.
- Warranty 10 year structural
- 3 year electrical
- 1 year castors
- S.W.L. 300kg

POA

W10/LATERATHEMA

Latera Thema Bed

- Lateral Tilt - The lateral tilt helps with the turning of the patient using the minimum of physical exertion, often with the assistance of just one nurse
- Infection Control - The column units and mattress platform covers etc. are construction features that play an important part in effective preventative measures in controlling the spread of hospital infections
- Column Unit - The column unit is patented. The bed's unique construction base provides great stability and guarantees continued functionality when loaded to 200 kg (safe working load)
- Backrest - The autoregression of the mattress platform extends the pelvic area by 11 cm contributing to the prevention of pressure ulcers whilst enhancing patient comfort
- Side Rails - Full length side rail with a double locking mechanism
- Bed Ends -Removable head and foot ends for easy access to patients head / feet
- Castors - Central locking of all castors from 2 points
- Large range of accessories and options
- Please contact us for project quotations

- Fully automated alternating pressure system that adapts to individual users without the need for manual adjustments
- Aids in the prevention and treatment of pressure ulcers up to and including category 4.
- One intelligent pump that auto detects which mattress is connected, to provide optimal pressure care
- 4 program modes: Alternating, Pulsation, Constant Low Pressure, Max
- Silent running and vibration free
- Unique CPR function that rapidly deflates mattress under chest whilst supporting user stability on the mattress
- Concealed cable management system to prevent accidental damage to electrical cords
- Pack&Go Function that auto deflates mattress completely for fuss-free packing & transport
- If mattress temporarily loses power supply, air remains inside the mattress for up to 6 months.

Positioning Products

Select a Bodypoint Hip Belt in 6 Steps

1. SELECT BELT TYPE

- Padded
- Non-Padded
- Hook and Loop Compatible

2. TWO OR FOUR POINT

TWO POINT HIP BELT

Two points of attachment to the wheelchair. Suitable when the belt is supporting users with low tone or weakness.

FOUR POINT HIP BELT

Four points of attachment to the wheelchair. Primary straps position the belt and secondary straps anchor the belt in position.

3. SELECT BUCKLE

PUSH BUTTON BUCKLE

Low profile, smooth, snag-free corners. Removable cover for changing release hole size and easy cleaning.

PLASTIC SIDE RELEASE

Lightweight, secure snap action.

REHAB LATCH™ BUCKLE

Lightweight, strong, low profile, easy to operate with limited hand function.

EXTRA SMALL METAL PUSH-BUTTON

Strong, secure, child-sized buckle. Buckle Security Cover also available.

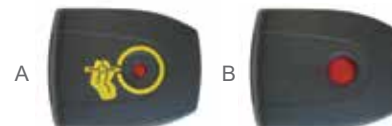

COMPACT PUSH-BUTTON

Firm button action prevents accidental release.

OPTIONAL SECURITY COVERS To Suit Push Button Buckle

- A Reduced Access Cover
- B Security Cover (Sold Separately)

4. SELECT A PULL TYPE

CENTRE-PULL HIP BELT

Operator: User or caregiver.

Adjustable: Tightens at the centre buckle.

Buckles: Available in the full buckle range.

Applications: Clients with low muscle tone or weakness.

REAR-PULL HIP BELT

Operator: Caregiver.

Adjustable: Tightens from the rear of the pad pulling toward the centre.

Buckles: Available in the full buckle range

Applications: Clients with high tone. Counters pelvic rotation by allowing the caregiver to position one side of the pelvis, lock it in place and then position on the other side.

DUAL-PULL HIP BELT

Operator: User or caregiver.

Adjustable: Tightens from both sides of the centre buckle.

Buckles: Side-release buckle only.

Applications: Clients requiring greater adjustment to accommodate clothing and weight changes.

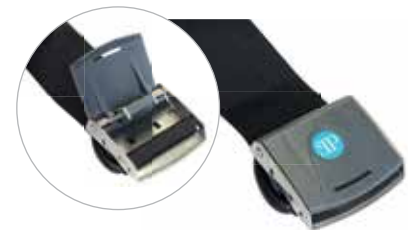

5. SELECT A SIZE

Sizes available from extra small to large.

6. SELECT A MOUNTING OPTION

CLINCH MOUNT™

Time saving, precise, easy adjustment

FLAT MOUNT™

Versatile, lowest profile

rental

rental

Financial Benefits

If your need for equipment is temporary or to free up your cash flow, renting is the answer. Generally, rental payments are fully tax deductible, and the expense can be recouped far quicker than tax allowances for ongoing asset depreciation. Streamline your accounts; equipment is often required for a particular client, project or location. Renting allows you to control your finances more effectively and simplifies the process of allocating costs to internal departments or third-parties.

The expense of maintaining, calibrating and storing equipment can be high. By renting equipment, you avoid these costs and potentially free-up valuable space within your premises.

Try before you buy

It's not always clear which equipment make and model will fulfil your requirements. A short term rental can give you the hands-on experience you need to guide purchase decisions.

*One-off initial cleaning & administration fees apply to each hire

Cater for the Unexpected

At peak periods or when essential equipment breaks down, rental can put the necessary equipment in your hands, ensuring seamless operations.

Our Focus - Our Customers

Without our customers, we would not exist. This philosophy is central to everything we do, and everything we are committed to achieving. Our customers give us the reason to continue to aspire beyond our existing reputation for excellence. Whether you work with our product daily, or benefit from it individually in your home, hospital or facility, your safety, comfort and ease of operation is paramount to us.

Emergencies

We understand emergencies rarely occur within business hours. Our dedicated and passionate team is able to respond to emergency calls 24 hours a day, 365 days a year.

Planned Maintenance

Protecting your rehab equipment, company reputation and personal liability has never been easier thanks to Calibre Care Support and our complete planned maintenance program. All work is documented, stored and available electronically to provide assurance that at all times your equipment conforms to OH&S legislation and Duty of Care responsibilities. Calibre Care Support wants your rehab equipment to be operating safely and at its full potential, thereby reducing your costs and operational concerns.

Parts Availability

Calibre Care Support will never let you down on spare parts with a spare parts distribution centre located in Western Australia. We carry an extensive supply of components for most rehab equipment products, including shower trolleys, commodes, electric beds, wheelchairs, walkers, patient hoists, powered wheelchairs & scooters, pressure care mattresses and lift-recline chairs. A comprehensive computer controlled inventory system means the right part is on the shelf when you need it... bottom line: maximum uptime for your equipment

Service Expertise

Our dedicated service technicians provide a high level of expertise built on years of rehab industry experience. Calibre Care Support technicians receive in-house training, regularly participating in factory programs. We work hard at maintaining a skilled, knowledgeable team. Calibre Care Support has the parts, equipment, qualified technicians and services that provide you with superior value.
